Delta Unit Quota, \$178,000.00

Sales to Date, \$32,250.00

Delta district, with a fine record of performance behind it in previous campaigns, is organized fully for the Ninth Victory Loan campaign, which got under way on Monday, October 22nd.

The unit in the current drive has been set at \$178,000, and although this is a substantial amount, unit organizers and salesmen are confident that the district will attain its objective before the close of the campaign.

The Delta unit has the past eight Victory Loans been one of the most successful in the entire sales, both in amount and number of sales per capita.

Every effort should be made in the Ninth Loan to maintain the very creditable reputation gained in the past.

The purchase of a Victory Bond is in reality the beginning of a savings account, whether the bond is bought for cash or in the Deferred Payment Letter plan.

There will not be a Victory Loan next spring, therefore next

Master Pianist

The brilliant Canadian artist, **JEAN DUBOIS**, whose invincible piano interpretation has been internationally applauded, is to play for the CBC Trans-Canada Radio on the "Masterworks for the Pianoists" series which starts on a Wednesday, October 31, at 8:30 p.m. CST.

With more and more emphasis being placed on poultry improvement, especially hatchability and chick quality, it is not too much to start thinking of our own hatcheries as well as the ones in the United States.

It is to be hoped that the people who are in the business of raising poultry will be able to get the best of both worlds.

If by buying from native, we can get the best of both worlds, we should not be so quick to say that we are not interested in the quality of the birds. We should be interested in the quality of the birds, and we should be interested in the quality of the birds.

Sugar Beet Production

Canada's sugar beet production for 1945 is estimated at 1,000,000 tons. This is a very important factor in the war effort.

These hens should be given a rest before being brought back into production. During this rest period, feed specially, as hens are inclined to put on fat when fed too much grain.

BUY FEED EARLY

Persons who do not arrange for their feed requirements at an early date may face a difficult winter. The feed situation is a very important factor in the war effort.

FARM MACHINERY OFF RATION LIST

All rationing controls have been removed from sales of farm machinery and implements. This is a very important factor in the war effort.

Farmers' Poultry Prices

Farmers selling all types of poultry, except turkeys, to consumers are permitted a 25% markup over the wholesale prices established for the zone in which they are located. Turkey producers are allowed a 20% markup over the wholesale price.

FARMERS' RATION COUPONS

Coupons covering farmer sales or farm household consumption of meat and butter, and poultry are now being issued to local farmers. This is a very important factor in the war effort.

FARM SLAUGHTERS

Farmers who slaughter for their own household consumption or for the consumption of their neighbors are not required to hold a slaughter permit. Any excess of farm slaughter meat over the farmer's or his neighbors' needs may be sold to the public at a regular slaughter price in quantities not less than a quarter of beef or a side of pork.

Rationing

That is why farmers are asked to continue to call and turn in coupons for their Local Ration Boards—once a month—in the R-8-1 envelope.

Real Achievement

Try and recall any service farmers have to purchase, the charges for which were lowered during the war years and prior thereto. Can you think of more than one?

Yet grain handling charges in country elevators were reduced to the lowest point in history during the war years.

The reason therefore was the fact that the Wheat Pools, the farmers' own organizations, are in business.

The Wheat Pools have earned the wholehearted support of every farmer.

DISCHARGED PERSONNEL

May Return to Old Jobs

The Reinstatement in Civil Employment Act, passed by Parliament in 1932, sets forth conditions under which employees MUST REINSTATE their former employers in their employment after discharge.

This Act and its Regulations are administered by the Dominion Minister of Labour, through the National Employment Office, Reinstatement Officers are available in the National Employment Office to answer inquiries, and assist in adjusting cases.

Employees—either men or women—are to be reinstated if:

- (a) they worked for their employer 3 months immediately prior to their discharge and were not discharged for cause; or
- (b) they left their employment to join the armed forces; or
- (c) they apply to their employer for reinstatement, verbally or in writing, within 3 months following discharge in Canada or 6 months if discharged overseas.

Provision may be made for extension of time if the employer's health prevented him or her from resuming within the specified three months. In this event, the employer must be advised within the 3 or 6 months, as the case may be.

The following points in the legislation are also important:

1. Discharged men and women upon reinstatement are to be given conditions of work no less favorable than those which have been enjoyed had they continued in the employment.
2. The period of time spent with the Armed Forces is to count for seniority rights, pension rights, vacation, and pay, and vacation.
3. Discharged personnel who cannot perform their former duties are to be reinstated in the most suitable employment available, even if they are capable of working.
4. If an employee discharges a reinstated employee within 6 months, he must be able to prove to a court that he had reasonable cause for so doing.

ALL EX-SERVICE MEN AND WOMEN ARE URGED TO USE THE OFFICES OF THE NATIONAL EMPLOYMENT SERVICE WHEN LOOKING FOR WORK.

WE MUST GRAB AGAINST INFLATION

Eight Victory Loans have been

issued to people in all parts of

life—clerk, industrial workers

and farmers—responded generously

and wisely to the call.

Meaning the way is winning the

struggle—we must also win the

peace. One of the fundamental

reasons for these Victory

Loans drives was to encourage

everyday citizenry—and you

to save and invest in Government

Bonds to protect ourselves.

Not only did our saving provide

money to buy war supplies; it

also removed the buying pressure

from the civilian market at a

time when civilian goods were

in short supply, and it helped

against inflation and provided us

with a safe and sure source of income

in later years.

Income—wages and salaries—

is still high, and consumer goods

of inflation are only too evident,
